Visual Art Mediums: painting, drawing,
sculpture
Queens, NY

“The one-to-one visual arts instruction with Henry gave him the opportunity to explore the creative process in a safe and supportive environment. He learned how to speak about his artwork and share his stories with others using visual and descriptive language. This collaboration has been an absolute inspiration to me as a teaching artist and artist. Explaining and relating your creative self to a second grader is a lesson in clarity and precision.”
